Survey was funded by the United Way*

# Survey Background

**Who:** DeltaKids is a coalition of the non-profit and government partners who work with Delta children and families. Together we plan, implement, and support opportunities for the optimum development of children from conception to age twelve.

**What:** DeltaKids conducted a Child-Friendly Community Survey. The survey was inspired by the work of the Society for Children and Youth of BC and was funded by the United Way. Information about the general findings and specific results about Safety, Transportation and Housing is enclosed.

**Why:** We offer this data in the hope that it will assist you in your work with Delta children and families, and in the spirit of prompting further discussion, research, and collaboration. Together we can make Delta an even more family friendly community than it is already.

About the Survey	Results
Where: The survey was conducted online, at community programs, events, and in schools during 2015	 <b>500 Parent Responses</b> (majority collected at programs and recreation centres)
What: Qualitative questions with three possible responses and the option to add comments.	 <b>54% of the time parents selected the most positive option</b> (community factors)
Who answered: Results are representative of Delta families, geographically and by child's age group	 <b>Responses from 1- 2 % of families in each of the Delta neighbourhoods</b> <b>2.5% of each age cohort represented, newborn to 12 years old, based on 2011 census</b>
Were kids asked? Yes!	 <b>54 responses to age 3-5 interview</b> <b>31 responses to age 6-12 survey</b>
<b>7questions specifically about common municipal matters</b>	 Driving with children, safety, and finding a house were identified as strengths. Cycling convenience and the inclusion of child/youth voices in decision making were identified areas that could improve

# General Survey Findings: Community Factors

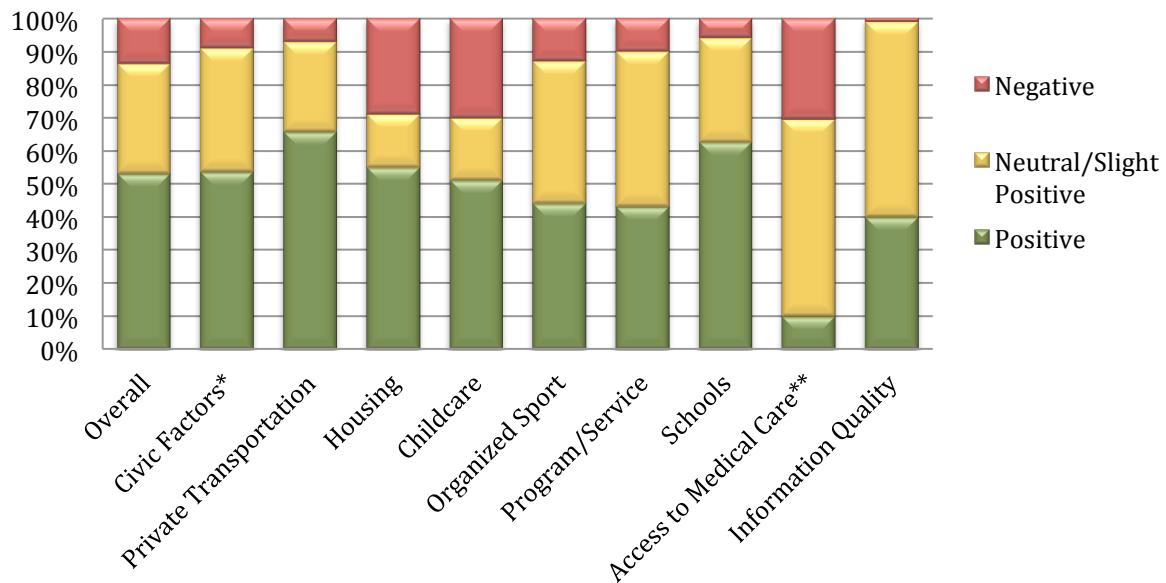

The survey included questions about the children's home environment/parent beliefs, and questions about the wider community. There were 29 questions covering a broad range of factors that impact families' experience of living in Delta. The choice of answers included a positive, negative and neutral/slight positive answer.

## Community Factors

These 29 questions can be grouped into 9 categories. Questions specific to this brief are in the Civic Factors, Private Transportation and Housing sections.

## Community Factors by Section

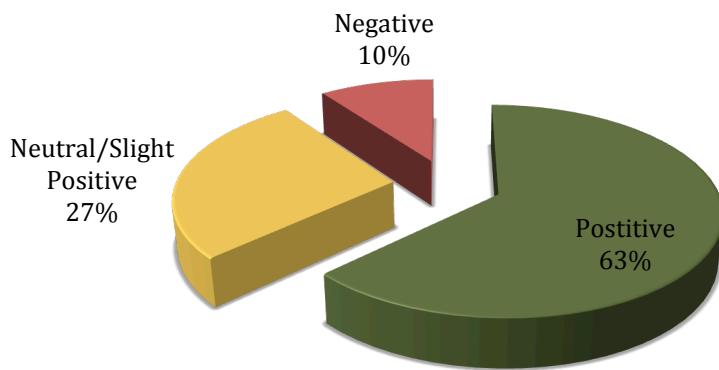

\* Civic Factors include access to play and outdoor spaces, feelings of safety, media coverage, involvement of children in decision-making, and experiences with local businesses.

\*\* The questions in 'Access to Medical Care' did not follow the typical question format. For most of those questions, the most positive response was a neutral one.

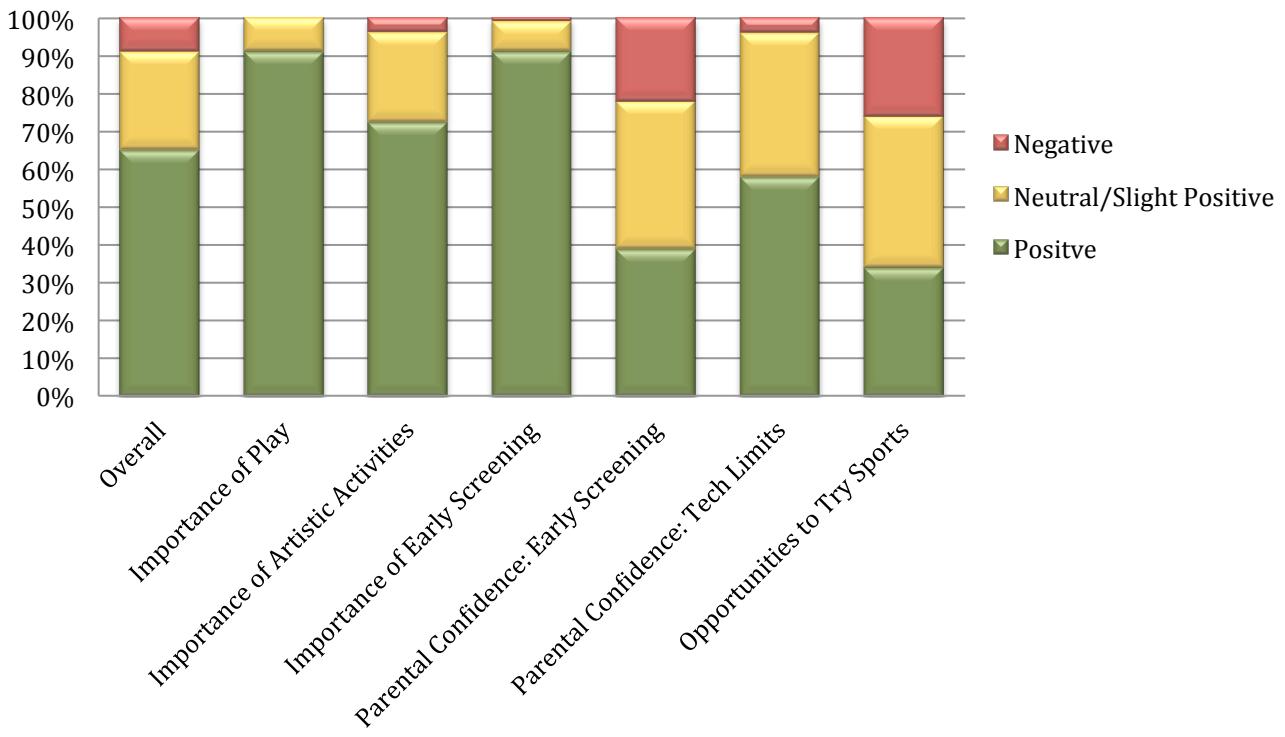

## General Survey Findings: Home Factors

Six Home Factors were surveyed. The survey asked about the importance of play, the importance of artistic/creative opportunities for children, the importance of early screening, parental confidence knowing when to access early screening, parental confidence setting limits on technology, and whether children had opportunities to try various sports activities. There were three possible answers: a positive response, a neutral/slight positive response, and a negative response.

### Home Factors

# 10 Highest Rated Community Questions

On average, parents responded to questions about their community with the most positive response available 54% of the time. These are the top ten community factors.

Rank	Item	Response
1		How convenient is it to drive a car around your community with children? 84% : Convenient
2		How welcome do you feel at your child's school? 78% : Very Welcome
3		My child has regular access to outdoor spaces where he/she can explore, create and interact with the environment. 77% : Agree
4		How welcome do you feel with children in Delta stores, restaurants and other businesses? 76% : Very Welcome
5		There are lots of different places in my community for children to play. 69% : Agree
6		How convenient is it to walk around your community with children? 67% : Convenient
7		My community is a safe place to raise children. 67% : Safer than Average
8		How available are recreation programs for children? 62% : Many Programs are Available
9		There are many community/cultural events for my family to participate in. 59% : Agree
10		How difficult was it to get your current home? 58% : Relatively Easy

## 10 Lowest Rated Community Questions

On average, parents responded to questions about their community with the least positive response available 14% of the time. These are the ten lowest rated factors.

<i>Rank</i>	<i>Item</i>	<i>Response</i>
1		How easy has it been to access Doctors in the community while living in Delta? 46% : Difficult
2		How easy has it been to access Mental Health Workers in the community while living in Delta? 40% : Difficult
3		Compared to other family activities, how stressful is it to shop, eat out, or take care of family business when you are with your children? 30% : More Stressful
4		My community involves children and youth in making decisions that affect the whole community. 20% : Disagree
5		How easy has it been to access pre-natal care in the community while living in Delta? 18% : Difficult
6		How hard has it been to make arrangements for the care of your children when you as parents are not able to provide care? 18% : Very Hard
7		How easy has it been to access Public Health Nurses in the community while living in Delta? 16% : Difficult
8		How available are groups and services that offer help to parents when they want it? 15% : Few Programs are Available
9		How convenient is it to ride bicycles around your community with children? 15% : Not Convenient
10		Is your child able to participate in the sports that you would like him/her to? 13% : No

## Municipal Specific Survey Findings (Civic Section)

Parents were asked about their perceptions of safety and the inclusion of child and youth voices in decision making. Community safety shows as a relative strength of Delta in the survey while the inclusion of child and youth voices is identified as an opportunity to grow.

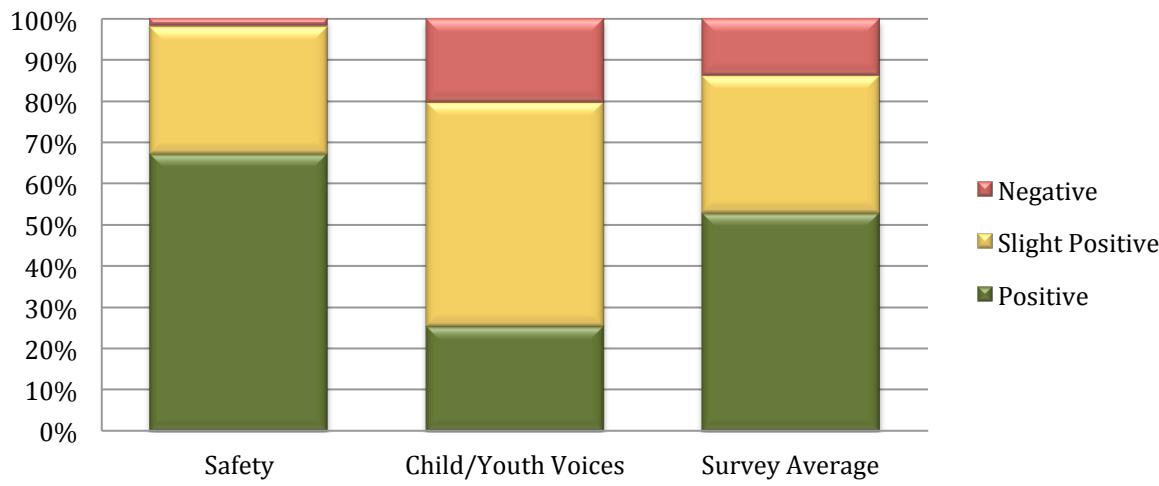

*Q1: My Community is a Safe Place to Raise Children*

a. Safer than Average      b. Average      c. Less Safe than average

*Q2: My Community involves children and youth in making decisions that affect the whole community*

a. Agree      b. Somewhat Agree      c. Disagree

### Civic Factors Compared to Survey Average

## Municipal Specific Survey Findings (Private Transportation)

The survey asked about the convenience of travelling with children while driving, walking and bike riding. The convenience of driving was the highest rated survey response of any item in the survey. The convenience of bike riding was not as positive. In the survey design we chose not to include a question about public transportation. We wanted to keep the survey as short as possible and felt it was already overwhelmingly clear that most Delta neighbourhoods have very limited access to bus service and that the municipality has been actively advocating for improved service for some time.

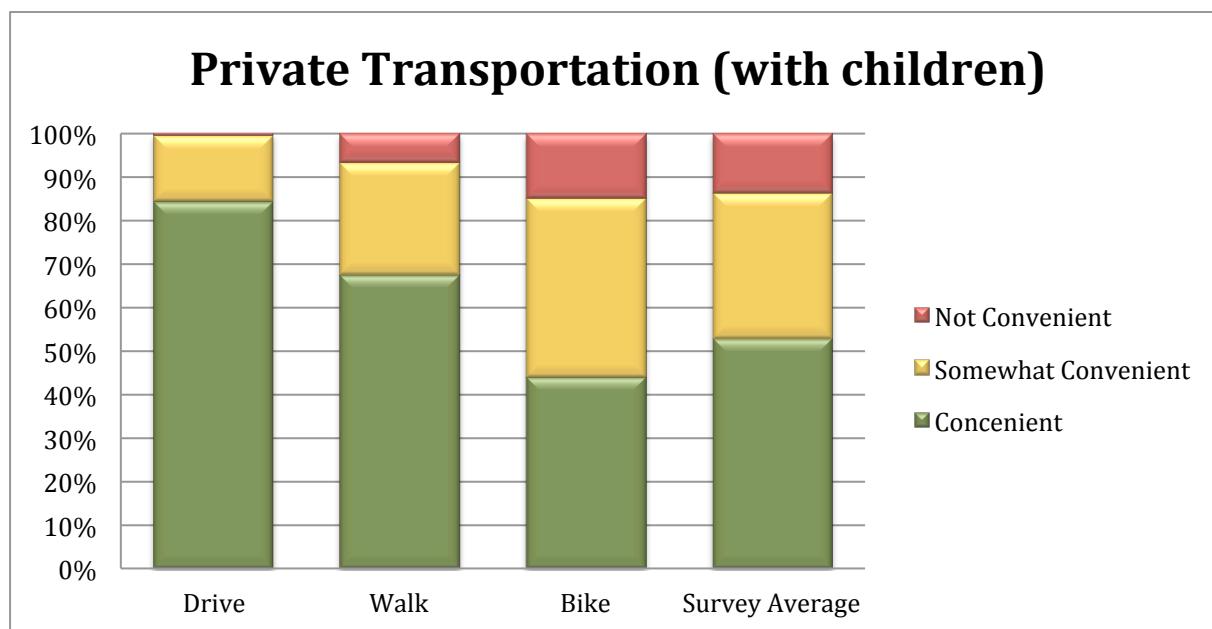

*Q3: How convenient is it to drive around your community with your children?*

*a. Convenient*                            *b. Somewhat convenient*                            *c. Not convenient*

*Q4: How convenient is it to walk around your community with your children?*

*a. Convenient*      *b. Somewhat convenient*      *c. Not convenient*

*Q5: How convenient is it to ride bicycles around your community with your children?*

## Municipal Specific Survey Findings (Housing)

The survey asked two questions about families' access to housing that meets their needs.

\*Note that the question of how difficult it was to get your current home did not follow the typical survey format with positive, neutral/ slight positive, negative options and instead contained a slight positive, negative and very negative option. So while the numbers are similar, the results indicate that finding a home is a significant challenge for many families.

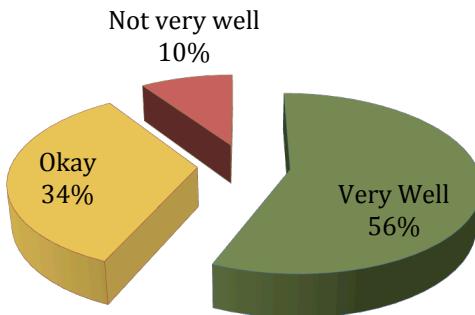

*Q6: How well does your current home meet the needs of your family?*

a. Very well

b. Okay

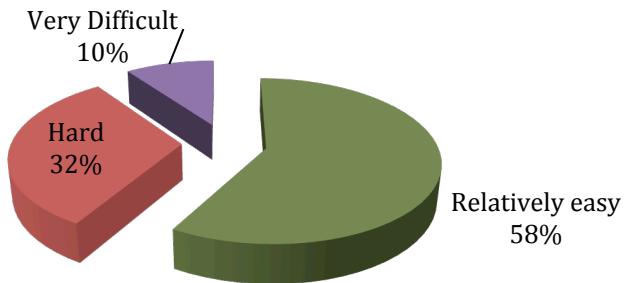

c. Not very well

### How well does your current home meet the needs of your family

*Q7: How difficult was it to get your current home?*

### How difficult was it to get your current home

While many families reported challenges, the 58% relatively easy was enough to make the top ten community factors. Comments (see Appendix 1) suggest that this may be at least partially related to how long families have been in their current house. It should also be noted that the survey data was collected in the midst of the housing price increase but well before the market hit its most recent peak.

## Appendix I: Parent Survey Comments (Civic Factors)

Question: *My Community is a Safe Place to Raise Children*

My community is safe but North Delta has declined overall

Ladner is lacking activities and services for teenagers

We should have a better solution to improve the safety. Too many break ins at North Delta

We feel North Delta is a safer than average place to raise children as it is a family oriented community. The only thing bothering us is that criminals from other city may sneak in to interrupt our peace.

so close to newton

Love nth delta

I feel very safe in my current neighbourhood

Crime has certainly been up in Delta. Teens have no safe place to hang out, drugs have been a major issue as well as some of the gang type activity. Our son is 6 and I am already scared as to what the 'future community of Delta will look like' in regards to crime

it feels very safe

I grew up here and am now raising a family here.....in north delta

Despite the odd incident, we feel very safe in our community

Need better crosswalks, people driving too fast and almost hit children when crossing the road.

But always cautious

Recent events make things feel less safe.

I am beginning to wonder, after multiple shootings in and around the area.

I feel so lucky how safe I feel raising my kids in south delta.

I wish there were sidewalks in every part of our neighbourhood. It's hard to walk places without having to use the road which is so unsafe with little kids.

This may be my optimistic outlook on 'safeness' of community. Recently it hasn't seemed safer than other communities.

recent shootings have us worried

We live 5 minutes away from an elementary school but there are no side walks. It's always so scary to see children walking to or from school and cars speeding by. In the snow time it's even more difficult for the children. I can't go for walks or take my child for bike ride because of the lack of side walks

starting to change my view with the gang shootings on 120th and the teen drug dealers at Mackie Turf forest area

Safer than average

To close to surrey

Well there was that stabbing at Burnsview this week, and all that Indo Canadian gang shootings lately.

I'm from London UK my perspective may not be balanced

Drugs are becoming a huge issue

but I still keep a close eye out.

traffic is getting too fast

## Appendix I: Parent Survey Comments (Civic Factors)

Question: *My community involves children and youth in making decisions that affect the whole community*

I do not have enough information to answer this accurately.

Really do not know

I have no idea

I don't know

I can't say that I have seen this with the younger ages of my kids.

Children young

My 6 year old son has never been involved in decision making for the community

I am just learning where this information all is

Not too sure on this one

n/a my child is still a baby

I have not seen or heard about any youth forums.

I don't have this knowledge.

Not sure

don't know

don't know

not too much experience with that yet

not sure

we need to rezone some of the neighbourhoods to permit more affordable housing. North Delta does not have enough affordable housing for families.

Unsure of how much

This survey is statement of that fact but it is the first such I have seen.

never been involved with decision making

I'm not sure how kids are involved as I've never experienced anything that involved my kids but I assume this to be true...?

Agree

North Delta has tons of playgrounds for kids under 10, but we need something for preteens 10-13. Like a airpark, climbing centre, activity centred warehouse for team and birthday events. Other than a rec. centre.

This process is not obvious to me

I've never heard of any kids or youth helping make decisions. Sounds like it would be a good idea

Unsure

not sure

unknown

not too sure

don't know

## Appendix I: Parent Survey Comments (Private Transportation)

Question: *How convenient is it to drive around your community with your children?*

I like that our area is not direct

way too much road work in North Delta

the long boarders in the Sunstone area ride down the Wiltshire Blvd & Modesto Place hills pretty fast and are a hazard to drivers and pedestrians. There needs to be a ban or something in place for this. There were some close calls last summer, This summer someone's child will be seriously hurt, maybe even killed if we can't control it

except in trying to go north south during rush hour to cross either nordel or 72

though we try not to as our son walks to school, would love to see more students walking to school, especially this last year with such fair weather

I don't drive

North Delta is oddly laid out - some places are confusing to access.

rush hour can be a pain

Drive thru Starbucks. ;)

No parking for child activities - not very much and not close to venues

More roundabouts

Need more speed controls in playground and school zones

Cars are always convenient I guess

Very congested around school zones during peak hrs.

I don't drive

116 is worse being more narrow and blocking driveways

parking is limited in Ladner

I do not drive

I don't drive

Easy and free parking is always accessible.

I don't drive a car

## Appendix I: Parent Survey Comments (Private Transportation)

Question: *How convenient is it to walk around your community with your children?* (page 1 of 2)

The lack of sidewalks on busy streets is appalling. Streets like 115 between 88 and 90 where kids walk to school and the park, yet no sidewalk, so kids are dodging around parked cars and cars that are driving.

sidewalks seem to be narrow esp when one has a stroller & another on a bike.

Sunstone has been advertised as a "master planned community" but essential components are still not completed 6 or 7 years later (no commercial space)

live at the bottom of a steep hill and it's difficult to push a double stroller to the top

Walk for enjoyment YES; walk to get places NO. And transit is not accessible.

some sidewalk corners are not stroller friendly

there are no side walks in my neighbourhood -bell park area of ladner and I often feel unsafe walking because of this.

much more convenient with new sidewalks

Very poor sidewalk access. Many roads have no sidewalks at all.

We go for walks all over the neighborhood all the time.

Not enough sidewalks

30 mins walk from home to nearest recreation centre.if there's shuttle bus between our complex to recreation centre that would be so good!

Lots of areas have no sidewalks

more sidewalks needed

More sidewalks would be helpful.

Too many dogs unleashed in parks and no control

I walk 1 to 3 times per day with my daughter.

We walk for hours

Police should be giving more tickets to speeding, and watching around school. So many people don't stop and let people cross the street.

No sidewalks and lots of speeding.

There are some parts of Sunshine Hills that do not have good sidewalks.

There aren't sidewalks everywhere in our neighborhood otherwise we could walk to sungod for example.

hard for strollers on some sidewalks that aren't for mobility-challenged folks

We live near Port Guichon but walk everywhere

Not a lot of connectedness in walking and bike routes

traffic and speeding drivers are a concern

Need more sidewalks and separate bike lanes.

## Appendix I: Parent Survey Comments (Private Transportation)

Question: *How convenient is it to walk around your community with your children?* (page 2 of 2)

we live in a school zone area but there are no side walks. It is always scary to see cars passing by fast and children having to go into drive ways to protect themselves. Especially in snow time, its so unsafe. I can't take my child for a walk or bike ride because there are no sidewalks.

There is not much to walk to. Most places to go outside or outdoors requires a drive. Biking is ok but not safe with a 7 y/o.

Lack of sidewalks

Lots of areas have no sidewalks

Speeders on 1st ave!!!

the old sidewalks and driveways are difficult to push strollers

East ladner mon as much to get to stuff

Long distance to get to places

Love North Delta

Everyone smoking, drivers very unreliable, we almost were hit many times

Beach Grove is a great neighbourhood for families

Not a lot of sidewalks in neighbourhood (north delta west)

I live in the farm in East Ladner so not accessible public transport where I live. I have to walk all the way to Arthur Drive or Ladner Trunk Road to get a bus ride or call a cab when it is raining hard

I don't drive, and I live in Sunshine Hills area, but the community centre are all located in 84th and 116th. It is not convenient for me to take children to the community centre.

live in East Ladner, so to walk to Ladner village where all the activities takes 40-45 mins

we live in East Ladner so there is not much to walk to

Question: *How convenient is it to ride bicycles around your community with your children?*  
(page 1 of 3)

live on busy street

drivers are not slowing down

I do not bike

Narrow road at 64th Street and 34B Street. The only access road for me to go to town.

In Ladner only. Tsawwassen, no bicycle routes available.

off leash dogs make it tough at times

## Appendix I: Parent Survey Comments (Private Transportation)

Question: *How convenient is it to ride bicycles around your community with your children?*  
(page 2 of 3)

Would be nice to have bike paths. There is always a worry of getting hit by a car.

Busy streets such as Ladner Trunk Road are not convenient.

Some street parking makes it risky for little ones on bikes. Not much in the way of bike paths.

Too much traffic

too much traffic

Too much traffic

Too much traffic

so many cars parked on streets now, I don't feel comfortable letting my kids ride their bike not on the limited sidewalks.

in Sunshine Hills - sure

Same safety concern as above

It is safe

Roads by us are busy and don't feel comfortable, but good trail systems for that

We ride on the sidewalks as 112th drivers area always driving fast. We live at 90th and 112th and they just put a crosswalk there, but what they need is those speedbumps. We are between 2 schools with lots of young kids everywhere and people are always speeding down or turning really fast down 90th towards River road.

There is a lot of traffic. People do not follow speed limits and there are many streets without sidewalks which forces children to ride on the road.

we need more sidewalks or cyclist lanes, only the main roads have this 112 and 116th streets missing some sidewalks in Beach Grove

We need more bike lanes, bike crossing buttons, and places to lock bikes.

Need more bike paths

very as we have bike routes through our neighbourhood

Please add bike lanes/routes including farm roads.

Bike routes are needed. I really notice this after moving from Vancouver to Ladner. I would like to ride my bike with my baby but feel unsafe.

Need bike lanes

Many cars park on main roads squishing bikes into traffic or making people ride on sidewalks.

Bad drivers.

Many main roads without bike lanes.

Could always be better.

Concern over 56th

Kids almost got hit by cars twice in one ride - people looking at phones coming onto 56th

Make it more obvious/bike lane

## Appendix I: Parent Survey Comments (Private Transportation)

Question: *How convenient is it to ride bicycles around your community with your children?*  
(page 3 of 3)

More biking paths to keep kids off of main roads would be better.

Same as walking, kids are too small to go on the road.

In East Ladner, you need to go out of the way to the overpass that takes bikes. It can be quite a task to take two children and their bikes over that pass and then proceed onto the busy road beyond.

there are no bike lanes

pathways are hard to get through barriers with a bike carrier

lots of trails, bike lanes

need more bike lanes - separate from cars and people walking

too much traffic makes it difficult

No sidewalk in our street and a dangerous curve that people don't take care around. 10a ave

Some bike lanes but not on main roads ; need to communicate bike routes more

no side walks, and not enough room on the street

See above. No separated bike routes, a horrible biking experience on the 17 designated bike route.  
Not a great bike destination.

We need dedicated bike lanes.

Not enough bike lanes - busy roads

No many safe places to ride for less experienced riders

No sidewalk on our street cars going too fast

Would like to see a bike lane from tsawwassen to Ladner

More bike paths and sidewalks would help

Zero bike lanes, and side walks are non-existent in our community.

Westham island needs a bike lane!

More bike routes on roads would help so we wouldn't have to ride on sidewalk

Very busy vehicle traffic. Not enough safe bike lanes

There are no bike lanes at all.

Don't feel safe having the kids bike with me as we have to go on main streets.

Haven't done yet

No comment. Don't bike.

not safe

Again, Beach Grove is great. I would love safer paths for bikes from Tsawwassen to Ladner. The highways and busy back roads are not safe for bikes.

Increased traffic around residential areas near hwy routes or the busy 64th/120th intersection have roads that are flush with sidewalks (no safety space in between). Would benefit from traffic calming improvements.

## Appendix I: Parent Survey Comments (Housing)

Question: *How well does your current home meet the needs of your family?*

hard to find job nearby home

I wish we had room for a play area in our complex

It is difficult to baby proof

Was not allowed pet, had to give her up. Hurt kids badly.

Need another bathroom and bedroom in the future

We live in an apartment

Our house was too small for us 6 years ago but it was all we could afford. Both professional parents but so expensive to live here.

we are currently developing a new home

We are currently renting our home which is scheduled to be demolished for townhouses. Such a sad situation. We love our home and it's close to everything we need but we will be forced to move and there is not a lot of renting options in North Delta that will meet the needs of both our children

we need more affordable housing for families

2 adults, 2 children of different gender in a 2 bedroom apartment. No outside area for kids to play

Too small We are looking into to building a better size to fit our family

Too small but bigger is too expensive

We would like to purchase a home but we have been forced out of the market due to overseas investors

Very expensive housing, so we had to sacrifice space

Because am only to take care for my kids so it's little hard for me because they like go out play with other kids

I need a larger suite but have no way of affording one

We can't afford a home

Our house is small for a family of 5 but we are managing

Landlord not happy to meet the needs to maintain the house.

We rent a house - it does not belong to us.

## Appendix I: Parent Survey Comments (Housing)

Question: *How difficult was it to get your current home?* (page 1 of 2)

We rent. Hard to find something in our price range that could accommodate our children and allow them to have a yard and not be cooped up in a dark basement suite

Houses are very expensive so are groceries

houses are very expensive so does groceries

Prices r very high

Houses are expensive

poor selection of rental properties in North Delta

Somewhere between Relatively Easy and Hard.

Had to save lots of money, ladner is not a cheap place to buy a house.

But rent is \$\$\$\$ here

Owning a home is a financial challenge - Finding one within an affordable price range is difficult. We live house poor, so that we can own a house, enjoy our space and hopefully raise our son in a community that will encourage his success.

not very convenient for ppl don't drive

housing is much too expensive for what you get

That was 12 years ago....I've noticed that u can't be picky now if u want a specific area as houses are selling fast

We rent our suite

I don't understand what this question is looking for

we have been here for 13 years and prices were over half of what they are today

Ladner detached homes are expensive.

Need more rental homes that allow pets. So hard to find places.

too expensive

Required help from family.

We would not be able to afford to buy now, or move.

Part of job package so not sure

10 minutes from schools

Very difficult to find an affordable home with a garden for the kids to play in

We borrowed money from parents and bought house with brother and sister

Bought a home 17 years ago and had equity from a home in another province

Purchased in 2002. Now it is extremely hard for friends to purchase in same community

Very expensive and difficult to find a home for sale.

Although we rent and are looking at leaving Delta in order to purchase a house.

We had help from family

More townhouse development

## Appendix I: Parent Survey Comments (Housing)

Question: *How difficult was it to get your current home?* (page 2 of 2)

prices have increased rapidly over the past few months, due to Chinese buying up properties this is making it impossible for others to buy suitable homes.

It was a case of right place at the right time. We found it by luck

It's easy when my cousins pick them to take her home and go out

Probably harder now, we bought our house in 2009

Not understand

don't own yet

bought 12 years ago

We live in a one bedroom low income apartment

We bought 13 years ago. The market was very affordable then.

currently staying with family, waiting to buy

Bought it a long time ago

### Neighbourhood Questions: page 1 of 2

<i>What is the best part about where you live?</i>	<i>If you could change 1 thing about where you live what would it be?</i>	
Nice and friendly	Closer stores	(8 years old)
i don't really like my neighborhood because i live pretty far from the rest of my friends.	I would change how it's so close to the highway and i would also change it so that the houses are newer and another thing i would change is i want to live closer to my friends and my school so maybe i could walk home by myself.	(12 years old)
It's quiet and friends are near	The garbage truck is very noisy and it wakes me up early in the morning	(10 years old)
I have lots of friends.	I would like to change that all the people would be happy and nobody is sad. Everybody would enjoy their life.	(7 years old)
It's that my neighbourhood is very peaceful and quiet and that services are very close by so we don't have to go far to get groceries or do activities.	Honestly that's a hard Question for me because i think that my neighbourhood is completely fine.	(10 years old)
I have lots of friends that live near me	To have a sidewalk on both sides of the street	(8 years old)
I'm close to my grandparent's house. It's not far from Tim Hortons. I can ride my scooter and play outside.	I wish there were more gardens around.	(8 years old)
My mommy, walking in the big bush	Nothing	(6 years old)
The george mackie library has a great collection of books, videos, and cd.it is also staffed with friendly librarians.	Create venues where kids can create after school clubs like chess clubs, science clubs, game clubs, etc. Have a science, history, or kids museum in north delta	(10 years old)
The sun and a good community		(9 years old)
My friends live close by and I like my daycare	That I could play outside every day	(6 years old)
I have lots of neighbours. Playing hockey on the street.	I want to have a bigger house with a big playroom.	(6 years old)
I play hockey with my friends. I go to daycare.	Close to water to go fishing.	(9 years old)
My friends come over sometimes.	I would like to live somewhere else. I would live in Surrey because there are a lot of trees there.	(8 years old)
The best part about my community is that there is a school nearby.	I would like more police.	(6 years old)

## APPENDIX III: 6-12 year old Questionnaire:

### Neighbourhood Questions: page 2 of 2

<i>What is the best part about where you live?</i>	<i>If you could change 1 thing about where you live what would it be?</i>	
It's like an 80s neighbourhood and I can go around with my friends and do what I want without my parents there all the time.	A water fountain that I could play in.	(8 years old)
School is very close	There should be nice walking area around my house	(7 years old)
the school and parks and stores are close	to have a yard to play in (we live in older townhouse complex with no play area)	(6 years old)
I love that there is no construction and that is a big hill so is kind of fun to play around. Also, I like how the cars are safe and I can play not in the middle of the road a little bit farther than the edge.	Well, living on the big hill is a little tiring if you want to get anywhere. I would like it to be more closer to the mall so I don't have to drive a long time to get to the Richmond mall.	(8 years old)
It's a safe neighbourhood	More street lights	(11 years old)
That it's safe and that I have a park in my back yard. Also living near the ocean is awesome because it only takes like 10 minutes or less to walk there and searching for snakes and other animals is always fun. But I have one complaint its that there is a drug hangout area at the back of my old school the school is called BeachGrove the area the teenagers hang out in is in the back forest and I don't want any kids stepping on needles or falling on them.	To clean up the mess the teens have made and DO SOMTHING ABOUT IT.	(10 years old)
It is really quiet and calm. To her it is a haven.	It could be a little bit more clean	(10 years old)
My neighbourhood and school	I'd change it to Hawaii	(10 years old)
It's secret. There's not too many people. Or bad guys	I would live by the beach.	(7 years old)
Community	None	(10 years old)
Quiet neighbourhood		(10 years old)
We live right down by the beach so I can play at the playground every day.	Nothing really. we have what we want and need.	(9 years old)
i like how the neighbourhood is close to my school and i live near my friends.	i would make a change on the sports cars and motor cycles that pass my house they sometimes wake me up and disturb my sleep.	(12 years old)
My mom lives close to my dad and step mom and brothers	My mom would live with my family and our house would be closer to my best friend	(8 years old)

## APPENDIX III: 6-12 year old Questionnaire:

### Housing Questions: page 1 of 2

<i>What do you like best about your house?</i>	<i>What would you like to change about your house?</i>	
It's a home i like how it's comfy.	Bigger i would repaint it and make it warmer and bigger.	(8 years old) (12 years old)
Everything about it	No changes so far	(10 years old)
I like that I have a nice house that I can call home and do things in	I wish that I took better care of my room.	(7 years old)
That it's big and it has all the "essentials" if you please.	Nothing. I mean it has everything that i need and use everyday.	(10 years old)
I have my own room	Nothing	(8 years old)
There's a lot of room. I've got a big back yard. I have my own room.	I wish there were more kids close by. To get a bunkbed	(8 years old) (6 years old)
I like that it is close to schools.	I would like to update the bathroom and install new carpets and new roof shingles.	(10 years old)
It is nice house and in a good area		(9 years old)
My grandma lives there. My papa lives there. I can look out the window when I am downstairs.	The door colour. That's all, everything is ok.	(6 years old)
My driveway.	I miss the big tree from the front yard.	(6 years old)
My pool. My bedroom.	We are changing the kitchen.	(9 years old)
Colour of my door. My trees.	Move my bedroom door.	(8 years old)
The TV	I would change our house by having no computers.	(6 years old)
X-Box	Bigger	(8 years old)
Convince	Nothing	(7 years old)
I live near my friends	to have a bigger back yard or a playground in our complex	(6 years old)
I really like the place and I think is big that it has a yard so I can play because my old house did not have a yard.	I would like to have my own room. Nothing else !	(8 years old)
It's warm and safe	I would like to live nearer my school	(11 years old)

## APPENDIX III: 6-12 year old Questionnaire:

### Housing Questions: page 2 of 2

<i>What do you like best about your house?</i>	<i>What would you like to change about your house?</i>	
I feel safe in it and warm and cozy	Well the park In the back is awesome, but me and my mom dad and sister every year put up swings in the park but we only get to play on them for a while because the city always takes them down so if you could stop taking them down that would be nice because we LIKE playing on them and so do the other kids that come into the park.	(10 years old)
It isn't too big so she knows how to live in a small house	Maybe a bigger back yard.	(10 years old)
I like how its safe and in a Co-Op	To make it bigger	(10 years old)
That its nice and its big. And it's big for my cat.	I would like to change my house to have four layers and I wished my bedroom would be in a long hall and through a wall you couldn't see. So I'd have a secret entrance to my room.	(7 years old)
Community convince	To make larger	(10 years old)
Holy and joyful placeap		(10 years old)
It's very cozy so that when I get home it's very comforting.	Again nothing really. I mean i want my room to be a bit bigger and I want to have a porch and whatnot but they are very tiny things that people won't notice.	(9 years old)
I like how my house is always warm and me and my family, and my friends are always feeling safe when i am at home.	I would change the colour of my bedroom I really don't like to pink colour. otherwise id change nothing.	(12 years old)
My dad's house has lots of family	A room for my mom	(8 years old)

## Appendix IV: Neighbourhood and Age Breakdown

While we can be reasonably confident in the accuracy of the Delta wide results (+/- 4.33% at 95% confidence level), the sub-population results for neighbourhoods or children's age have much larger confidence intervals. The following tables include confidence intervals calculated for the most positive response. If a sub-population's percentage is within the confidence interval for the total result a "w" is recorded. If not, an additional confidence interval was calculated for the sub-population result to determine if that range fell within or beyond the range of the overall survey result. As you will see the sub-populations are rarely different enough to be considered statistically different by this method. Nonetheless we wanted to provide the breakdown in the spirit of prompting questions, discussion, and further research.

*Survey respondents identified their neighbourhood based on these descriptors:*

*These neighbourhoods are the same used by the Human Early Learning Partnership at UBC for their research
